

- Post construction clean

Just had a Kitchen remodel? Wall tear down? Whole house makeover? We come in, and clean every nook and cranny that could have dust or dirt on it. Walls, floors, windows, baseboards, flat surfaces, knick knacks, everything that was in the construction area.

- Decluttering

We get rid of what's not needed or wanted in your home by your request and take it to the dump or charity. We get it out of your house, storage, basement or garage.

- Move in / move out cleans

Moving into or out of a house / apartment, we clean all the floors and windows in the whole place. Making it ready for the next tenants to be overly excited, or for yourselves.
